## How it works

A simple, integrated, customisable lending portal that offers your customers your full brand experience.

## About Ario

At Ario, it's our mission to help you grow your business.

Use our turnkey solution offer your customers quick and simple access to capital, helping them buy more from you and increase your bottom line.

Our platform removes all the barriers. We bring the technology, regulatory compliance, and even the lender capital. All at a much

lower cost than traditional lending.

To enable you, Ario combines

- cutting-edge technology
- data analytics
- machine learning
- balance sheet capital

## Security first, and security throughout

At Ario, software security is built into everything we do. From requirements engineering, feature design, and implementation to incident management and response.

Our robust security program protects the security of our platform as well as the security and privacy of our customers' data. We treat security problems as engineering problems and employ world-class engineers to solve these problems. We've implemented security controls inspired by NIST, DISA, CSE, CIS, OWASP, ISO, PCI, and from the collective years of security experience and best practices of our world-class team.
